Consider a normal form game.

Consider a normal form game.

|      | Walk | Run  |
|------|------|------|
| Walk | 1,3  | 5,17 |
| Run  | 2,2  | 9,0  |

Consider a normal form game.

|      | Walk | Run  |
|------|------|------|
| Walk | 1,3  | 5,17 |
| Run  | 2,2  | 9,0  |

Fix a Stackelberg leader, say player 1.

Figure out player 2's best response for every action choice of player 1.

Figure out player 2's best response for every action choice of player 1.

|      | Walk | Run   |
|------|------|-------|
| Walk | 1,3  | 5,17* |
| Run  | 2,2* | 9,0   |

<□> < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ > < □ >

Figure out player 2's best response for every action choice of player 1.

|      | Walk | Run   |
|------|------|-------|
| Walk | 1,3  | 5,17* |
| Run  | 2,2* | 9,0   |

Stackelberg Equilibrium: Player 1(Stackelberg leader) chooses the action that gives her the highest payoff, given that Player 2(Stackelberg follower) will best respond.

Figure out player 2's best response for every action choice of player 1.

|      | Walk | Run   |
|------|------|-------|
| Walk | 1,3  | 5,17* |
| Run  | 2,2* | 9,0   |

Stackelberg Equilibrium: Player 1(Stackelberg leader) chooses the action that gives her the highest payoff, given that Player 2(Stackelberg follower) will best respond. (*Walk, Run*).

▲ロト ▲ 理 ト ▲ 王 ト ▲ 王 - の Q (~

Figure out player 2's best response for every action choice of player 1.

|      | Walk | Run   |
|------|------|-------|
| Walk | 1,3  | 5,17* |
| Run  | 2,2* | 9,0   |

Stackelberg Equilibrium: Player 1(Stackelberg leader) chooses the action that gives her the highest payoff, given that Player 2(Stackelberg follower) will best respond. (*Walk, Run*).

Notice that (*Walk, Run*) is *not* a Nash Equilibrium of the normal form game.

Figure out player 2's best response for every action choice of player 1.

|      | Walk | Run   |
|------|------|-------|
| Walk | 1,3  | 5,17* |
| Run  | 2,2* | 9,0   |

Stackelberg Equilibrium: Player 1(Stackelberg leader) chooses the action that gives her the highest payoff, given that Player 2(Stackelberg follower) will best respond. (*Walk, Run*).

Notice that (*Walk, Run*) is *not* a Nash Equilibrium of the normal form game.

What is the Stackelberg Equilibrium with player 2 as the Stackelberg leader?

# COUPLE OF QUESTIONS

#### COUPLE OF QUESTIONS

Is the Stackelberg Equilibrium payoff for the Stackelberg *leader* at least as high as her highest Nash Equilibrium payoff?

#### COUPLE OF QUESTIONS

Is the Stackelberg Equilibrium payoff for the Stackelberg *leader* at least as high as her highest Nash Equilibrium payoff?

Is it possible for a player to prefer being a Stackelberg *follower* to being the *leader*?
